

◆ **Products Introduction :**

SA911 Small flexible search mirror provides a quick and effective visual search capability for law enforcement officers and for individuals with personal security concerns. In addition, specialized task units often require a similar capability optimized for tactical use. It can be carried as an aid to personal security or as an individual issue by operational personnel. Fitted with a glass mirror, telescopic arm and two LED lamps.

◆ **Features:**

1. The position mirror of double ball joint can be at any angle.
2. Corrosion resistant chrome plated shaft.
3. Dual bright white LEDs illuminate potential areas for ultimate visibility.
4. Comfortable handle, soft non slip rubber handle.
5. The lamp holder can rotate 360 degrees, and the lamp pole can be retracted, up to 65cm.
